How Do I Add Students To My Account?

You can set up as many students as needed through a single account, as long as they are within the same district. For reporting purposes, and other reasons, the system is unable to create an account for two (2) students with two (2) different districts. You must create separate accounts, listing a different district, and use a different email for each.

Step 1 – Adding a Student

- 1) Upon logging into the system for the first time, you will be prompted to add a patron to your account. Follow the [Click Here](#) link, then the [Add Student/Patron](#) button to add your student's information.

A)

B)

Step 2 – Enter Student Information

- 1) Your student's information must match the details provided to you at registration by your school. PaySchools **CANNOT** provide student information and any questions pertaining to student information must be directed to your school.

The screenshot shows a web form titled "Add Student / Patron" with a close button (X) in the top right corner. The form contains the following fields:

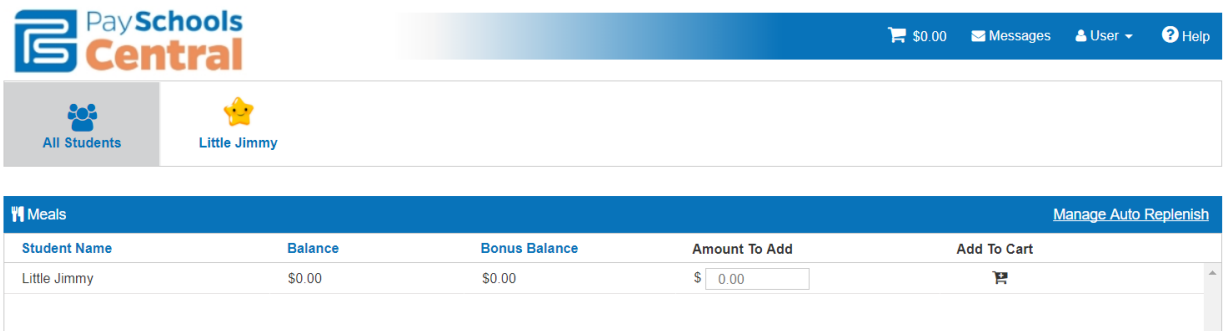

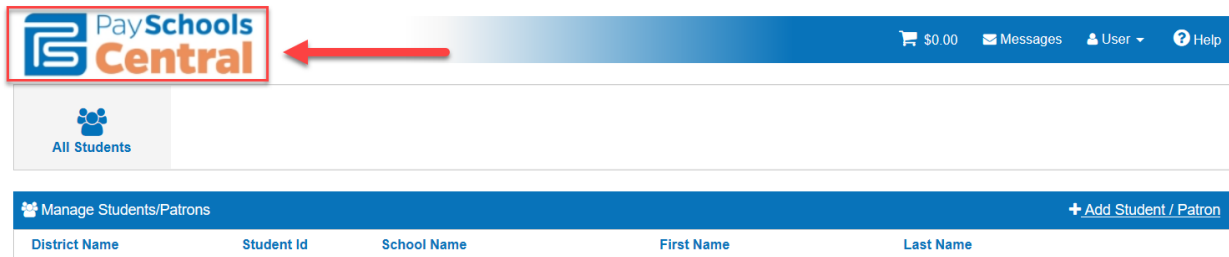

- State:** A dropdown menu with the text "-- Select your State --" and a downward arrow.
- District:** A dropdown menu with the text "-- Select your District --" and a downward arrow.
- ID:** A text input field.
- First Name:** A text input field.
- Last Name:** A text input field.

At the bottom right of the form, there are two buttons: "Register" and "Clear".

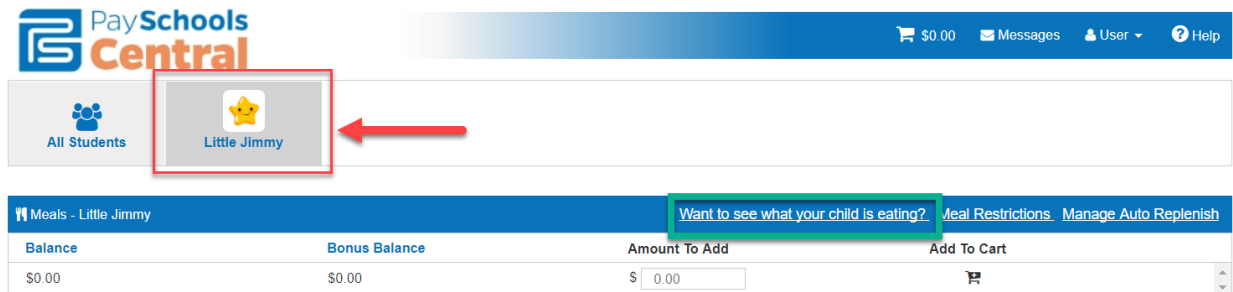

- 2) Once all information has been entered, press the Register button.

Step 3 – View Added Student

- 1) Click the PaySchools Central logo in the upper-left corner of your screen to return to the home page.

- 2) Click on the specific student name to see additional settings:

What is my child eating

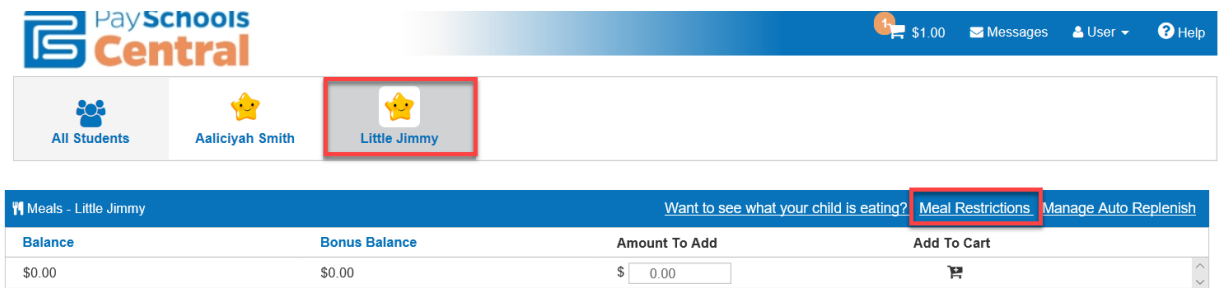

- A) Want to see what your child is eating? will tell you the item and price of the food your student is purchasing.
- B) Select the dates you want to see, and the activity will populate below and the PDF icon in the upper right will allow you to export the report.

Meal restrictions

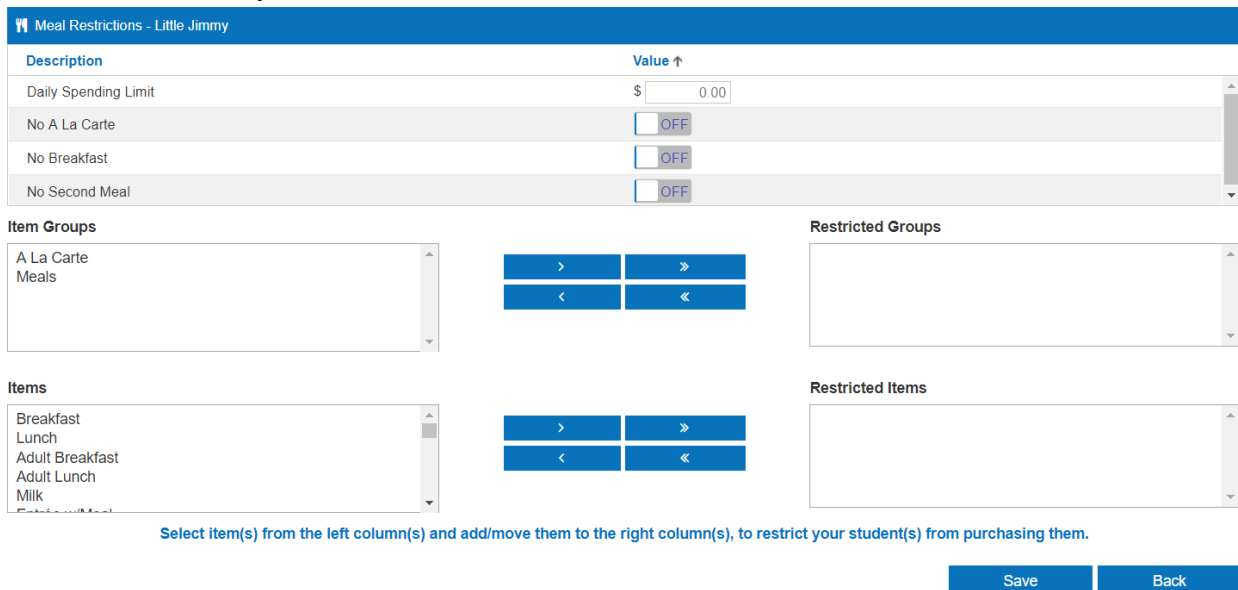

- A) The Meal Restrictions option will allow you to decide a ‘Daily Spending Limit’, other meal period specific restrictions, as well as specific ‘Item Groups’ and ‘Items’.

Note: The ability to manage these is contingent on your school or district being equipped with the proper software, or the permissions allowed to you by the school or district.

The screenshot shows the PaySchools Central user interface. At the top, there is a navigation bar with the logo, a shopping cart icon showing \$1.00, a Messages icon, a User profile icon, and a Help icon.
